

Online Early Storytelling

(Ages 2.5-7.5)

Learning Outcomes

Vocabulary & Pronunciation

For young readers, picture books are essential for building vocabulary skills and sentence structure. Native English speaking teachers aid students with their pronunciation and articulation.

Social Interaction & Class Etiquette

In groups of 3-4, students share their ideas with peers while practicing taking turns, raising their hands, and being active listeners. Small class sizes allow for high quality interactions from teachers.

Comprehension & Moral Values

In class, students actively participate in analysing the books. Lessons learned from each story are also discussed. Our books are available for students to review at home, allowing students to dive deeper into the story.

Class Levels

Newbie - 25 min

Short and sweet. Students practice taking turns answering simple questions while sharpening their listening skills.

Beginner - Pre-K, 45 min

Entertaining and memorable. Students build their comprehension of stories by practicing full sentence answers and great classroom etiquette.

Intermediate - K, 45 min

Fun and unique perspectives. Students begin independent reading and critical thinking, students learn relatable lessons through stories.

Advanced - Gr 1-2, 45 min

Complex stories. Students learn about the world around them while practicing engaging storytelling skills, reading with intonation and expression.

Days with the same colour are repeated sessions for that particular week. If attending classes twice a week, one would choose one "yellow day" and one "blue day".

A Few Testimonials

Janelle began to listen to Liann telling stories when she was over three years old. After more than two years, she has really benefited a lot. I really want to thank Learn with Liann for helping Janelle develop the habit of independent reading very early on. But more importantly, Janelle has experienced a whole world of stories and through these selected books, she has learned love, wisdom and courage.

- **Pennie** (daughter is in Advanced Storytelling class)

I highly recommend Learn with Liann! After a few months of attending class, Jonathan transformed from a shy child who didn't dare to speak to a "Mr. Talkative" who spoke frequently in class. The homework is also carefully prepared by the teachers and can train children's writing and drawing skills. Definitely good value for the money!

- **Julia** (son is in Beginner Storytelling)

I definitely recommend Kai's favorite reading class, which is very interesting and covers a wide range of subjects. Every time he finishes 45 minutes of class, Kai is still eager for more! Especially during the pandemic, the online reading has really broadened Kai's knowledge in one year. From time to time, Kai even expresses challenging vocabulary I didn't expect him to know! Every class there are three stories to foster good reading habits and students practice good classroom etiquette.

- **Carol** (son is in Beginner Storytelling)

Learn with Liann is a program that Alina loves so much. At first she wasn't fond of reading but now she asks me to read with her everyday. The stories in class are so vivid and the teachers bring the books to life, making this class especially attractive to children. Through every 25 minute online class, Alina sits and listens carefully. The English progress is visible to the naked eye. Moms can sit nearby as well and learn new ideas together!

- **Crystal** (daughter is in Newbie Storytelling)

This is a reading class that Amy likes very much. The reading theme will be different every month, and the teachers will carefully select the corresponding books around this theme. By communicating with teachers and classmates, Amy has learned how to express her thoughts and opinions in complete sentences, so as to build self-confidence and improve her expressive skills. Children will benefit for life from developing good reading habits.

- **Han** (daughter is in Intermediate Storytelling)

Each early storytelling class has given Emma so much confidence in expressing and sharing her ideas, not to mention improving her reading skills. I love to see how Emma gets to explore the world through carefully picked books. Each month, books are chosen based on particular themes that are fun and exciting! The size of the classes are very small so teachers can be attentive to each student's needs. The best part is that teachers are very friendly and patient with children! We strongly recommend this early storytelling class.
