

Online Confident Communication + Private School Interviews

25-35 minutes per class

Communicate clearly and confidently!

Conversate with a teacher buddy throughout the summer! Express your ideas with clarity, accurately use describing words, and perfect your ability to explain situations! Build confidence, share ideas, experience high quality interactions with teachers!

Can this class help with school interviews?

Yes! Being able to communicate effectively and having a strong impression is essential during the admissions process. We recommend our regular storytelling classes to build knowledge and vocabulary. We recommend our confident communication class to build speaking skills and confidence.

How does the class work?

Through various speaking exercises, teachers guide students to speak in full sentences and with correct grammar and sentence structure. Each class focuses on a set of vocabulary such as polite words, expressing time, descriptive language, and more! In class, students also build vocabulary through various fun games and activities.

Can I practice specifically for school interviews?

Yes! You can switch the confident communication class into a private school interview class or vice versa. When we near the admissions period, teachers can provide mock interviews to help prepare and familiarize students with the admission process. In order not to overprepare for underprepare, we recommend beginning mock interviews 1-2 months before the interview date.

Registration

Summer 2022 Pricing:

\$32 - Private 25 minute session

\$39 - Private 35 minute session

**Register for 10+ classes and receive 10% off (must be used between July 4 to Aug 28)*

***All prices are in Canadian dollars and are subject to 5% GST*

Class times:

Contact us to create the perfect schedule! Students can take anywhere between 1-5 classes a week to reach their speaking goals.

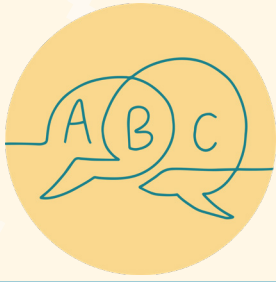

What interview outlines do we follow?

We have general interview outlines to follow that cover most questions and activities during the admissions process. Families are welcome to request interview formats in accordance with their school requirements. After mock interviews, assessments are provided each class with a focus on student etiquette.

Online Phonics

25-35 minutes per class

Make this the summer of reading!

Preparing to read chapter books in grade one! Read picture books independently in kindergarten! Remember all 26 alphabet letters and sounds before JK! Get ahead this summer or catch up to your grade. We can customize a learning plan to fit your goals.

Why learn phonics and decoding?

Phonics creates an understanding of identifying different sounds made by individual letters and letter groups.

Decoding develops learners' ability to hear, identify, and manipulate sound patterns. The ability to decode is the foundation upon which all other reading instruction—fluency, vocabulary, reading comprehension, etc. are built.

What are the class levels?

There are 20 beginner lessons where students learn the alphabet, 3-4 letter words, and common sight words.

There are 54 intermediate lessons where students learn blending, digraphs, and reading picture books on their own.

There are 19 advanced lessons where students identify short and long vowels, vowel teams, variant vowels, plural rules, and other tricks to aid smooth reading and writing!

Is there homework for each class?

Each class there is a homework worksheet that is connected. Students also receive cue cards with sight words and high frequency words.
